

Website Compliance Report

PREPARED EXCLUSIVELY FOR

Oakfield Community Care Ltd
www.nhs.uk

DATE OF ASSESSMENT
8 July 2026

REPORT REFERENCE
BC-3F9A1B2C

CHECKPOINTS ASSESSED
19

6.8 /10

Overall standing: Needs improvement

1 urgent and 5 important issues identified, with 13 checkpoints already met. Full findings and remediation steps inside.

Where Oakfield Community Care Ltd stands today

This assessment reviewed your website against 19 compliance checkpoints across five areas: legal pages, privacy & cookies, transparency & trust, CQC & care-sector duties, and technical security. Every finding in this report is specific to your website — including, where relevant, the exact page where evidence was or was not found.

Score by area

How to read this report

Urgent findings relate to legal duties or security exposures and should be addressed first — we recommend within 7 days. **Important** findings affect trust, enforceability or best practice and should be resolved within 30 days. Each finding includes what we found, why it matters for a care provider, and the practical step to fix it. Scores of 9.0 and above are considered compliant; anything below means there is work to do.

Assessment scope

The review covered 12 pages of your public website, including the pages where visitors expect to find your legal, privacy, contact and CQC information, together with the technical configuration of the site itself.

6 issues requiring action

Work through the findings in the order presented — urgent items first. Each one is self-contained: what we found, why it matters, and how to fix it.

01 CQC rating displayed

URGENT · CQC & CARE DUTIES

WHAT WE FOUND

Your CQC rating was not found — rated providers are legally required to display their most recent rating on their website (Regulation 20A).

WHY IT MATTERS

Displaying your most recent CQC rating on your website is a legal duty under Regulation 20A, with fixed financial penalties for non-compliance. This is the single most commonly missed legal requirement on care websites.

HOW TO FIX IT

Display your most recent CQC rating prominently (the official CQC widget is easiest), with a link to the full report. This is a legal duty under Reg 20A with fines for non-compliance.

Recommended timeframe: Within 7 days

02 Complaints information

IMPORTANT · LEGAL PAGES

WHAT WE FOUND

No accessible complaints information was found — CQC Regulation 16 expects an accessible complaints system.

WHY IT MATTERS

CQC Regulation 16 requires an accessible complaints system. Families and commissioners actively look for a published route to raise concerns — its absence undermines confidence and is easy for an inspector to notice.

HOW TO FIX IT

Publish your complaints procedure (or a summary with a link to the full policy): how to complain, response timescales, and escalation to the Local Government & Social Care Ombudsman.

Recommended timeframe: Within 30 days

03 Company registration details

IMPORTANT · TRANSPARENCY & TRUST

WHAT WE FOUND

No company registration number was found — limited companies must display this.

WHY IT MATTERS

Companies Act 2006 s.82 requires limited companies to display their registered name, number and office. Non-compliance is an offence, and savvy commissioners check for it.

HOW TO FIX IT

Add "Registered in England & Wales, Company No. XXXXXXXX" with your registered office to the site footer (Companies Act 2006 s.82).

Recommended timeframe: Within 30 days

04 CQC registration displayed

IMPORTANT · CQC & CARE DUTIES

WHAT WE FOUND

No mention of the Care Quality Commission was found — regulated services should state their registration.

WHY IT MATTERS

Stating your CQC registration (with provider/location ID and a link to your profile) is the fastest way to prove legitimacy to families and professionals referring into your service.

HOW TO FIX IT

State that you are registered with the Care Quality Commission, include your provider/location ID, and link to your profile on [cqc.org.uk](https://www.cqc.org.uk).

Recommended timeframe: Within 30 days

05 Safeguarding commitment

IMPORTANT · CQC & CARE DUTIES

WHAT WE FOUND

No safeguarding information was found — families and commissioners look for this.

WHY IT MATTERS

A published safeguarding commitment — with a named lead and a route to raise concerns — reassures families and matches what commissioners and inspectors expect to see from a well-led service.

HOW TO FIX IT

Publish a short safeguarding statement: your commitment, the named safeguarding lead, and how to raise a concern (including the local authority route).

Recommended timeframe: Within 30 days

06 Registered manager named

IMPORTANT · CQC & CARE DUTIES

WHAT WE FOUND

No registered manager is named on the site.

WHY IT MATTERS

Naming your registered manager signals an accountable, well-led service and aligns your public presence with your Statement of Purpose.

HOW TO FIX IT

Name your registered manager on the about/contact page — it signals a properly-led service and matches your Statement of Purpose.

Recommended timeframe: Within 30 days

Where you already comply

LEGAL PAGES

Privacy policy — Privacy policy found at /our-policies/choose-your-cookie-settings/

Terms & conditions — Terms page found at /conditions/covid-19/

Accessibility statement — Accessibility statement found at /accessibility-statement/

PRIVACY & COOKIES

Cookie consent banner — A cookie consent mechanism was detected.

Cookie policy — Cookie policy found at /our-policies/choose-your-cookie-settings/

Data protection commitment — Data protection / UK GDPR commitments are referenced.

TRANSPARENCY & TRUST

Contact details — A contact email or phone number is published.

Registered address — A UK postal address is published.

SECURITY

HTTPS enabled — Your site is served over HTTPS.

HTTP redirects to HTTPS — Plain http:// requests are redirected to HTTPS.

HSTS header — HTTP Strict Transport Security is enabled.

Security headers — 3 of 4 recommended security headers are set.

No mixed content — No insecure http:// resources detected on your pages.

Your action plan at a glance

01	CQC rating displayed	URGENT	Within 7 days
02	Complaints information	IMPORTANT	Within 30 days
03	Company registration details	IMPORTANT	Within 30 days
04	CQC registration displayed	IMPORTANT	Within 30 days
05	Safeguarding commitment	IMPORTANT	Within 30 days
06	Registered manager named	IMPORTANT	Within 30 days

NEXT STEPS

After the fixes: re-assess, then go deeper

1. Work through the action plan in order — urgent items within 7 days, important items within 30.
2. Once your changes are live, run a fresh assessment at bizcompliance.co.uk to confirm your improved score and keep the evidence on file.
3. Remember that your website is the public tip of your compliance position. A CQC inspection assesses far more: 139 evidence points across all 18 compliance areas of the HSCA 2008 Regulated Activities Regulations, examined through the Single Assessment Framework.

BizCompliance CQC

The CQC Readiness Audit — £595, delivered in 48 hours

A personalised, manual review of your whole service: every one of the 139 evidence points, red / amber / green ratings for all 18 areas, a personalised readiness score, a fix-first action plan — and the compliance documents you are missing, issued directly to your secure vault.
